## CORE COMPETENCIES

With 17 years of consistently delivering solutions to unique site development challenges – whether for new construction, repairs, or alterations – our firm has become the civil engineering partner of choice for Architect-Engineer (A-E) teams in real property & facility management services. Our low fee structure and unwavering commitment to excellence set us head and shoulders above the competition!

### Specialties:

- Sustainable Site Development (Green Building)
- Stormwater Management (SWM) & Drainage – Design & Inspections
- Erosion and Sediment Control (ESC) – Design & Inspections
- Pavement Condition Assessment
- Site Planning (Drainage, Parking, Grading, Etc.)

## DIFFERENTIATORS

- Award-winning subject matter expertise!
- Highest rated instruction at the professional, industry, and university lecture levels.
- 91% of revenue from repeat clients!
- Client relationships lasting over 10 years+. (TRUST)
